

UNLEASH YOUR POWER

An Introduction to Charles F. Haanel's Master Key System

The Master Key System is a structured study of thought, consciousness, character and purposeful action. It is not a religion, a philosophy, a theory, or a system of dogma.

The mind as a creative power

Haanel describes the mind as active and creative. Ideas, beliefs and mental attitudes influence how we interpret our experiences.

From understanding to action

Truth, Tact, Loyalty, Individuality, Courage, Accumulation, Constructiveness and Sagacity connect imagination with reality.

One energy, different forms

The illustrations of water, ice and steam show different forms of one substance changed by conditions. Attention is the key to power.

A simple practice for today

Take ten quiet minutes. Ask what thought pattern has influenced you recently, whether it helps you move toward your goals or hinders you.

Studying the Master Key System today

Each lesson builds on the previous one. Unleash Your Power presents the material as a structured 24-week journey.
